

Cookie Policy

This document explains the manner in which cookies, and similar tracking technologies, are used on Park Place Technologies' website, online customer portal and related services (all together the "**Website**"). It should be read in combination with the [Website Privacy Policy](#), as any personal data captured on Website users through these technologies will be handled in accordance with the principles and terms set out in that Policy.

1. General Information

This Website uses cookies. Cookies are small text files that the sites visited send to you and store on your computer or mobile device, and which will be returned to these same sites on each new visit. Thanks to these cookies, the Website remembers your actions and preferences (for example connection data, preferred language, font dimensions, other display settings, etc.) so that you do not have to need to specify them again when you return to the Website or consult another page on the same Website.

Cookies are used for electronic authentication, session monitoring and the storage of information on the activities of users visiting the Website. They may also contain a unique identifier allowing a system to monitor your browsing activities on the Website, for statistical or advertising purposes. When you visit a site, you may also receive cookies on your computer or mobile device from other sites or servers (third-party cookies). Certain operations may be impossible to perform without the use of cookies, which in some cases are technically necessary for the proper functioning of the Website.

There are different types of cookies and similar tracking tools (such as, but not limited to, web beacons, pixels, fingerprinting, etc.), also depending on their characteristics and functions, the duration of storage on your computer or mobile device.

For the purposes referred to in this Policy, any reference to cookies also refers to similar tracking tools.

Session cookies are automatically deleted when you close your browser, while persistent cookies remain on your device until a preprogrammed expiration date.

Prior explicit consent is not required for "strictly necessary cookies", i.e., those used for the sole purpose of carrying out the transmission of a communication over an electronic communications network, or as strictly necessary to provide a service explicitly requested by the user. In other words, cookies which are indispensable for the operation of the Website or to perform tasks requested by the user do not need your prior consent to be installed. On the other hand, "non-essential cookies" – i.e., cookies used to help Park Place Technologies to improve the Website by collecting and reporting information on how the users use it, to create users' profiles and to send targeted advertisements in line with the preferences revealed by users while browsing websites – require your specific consent.

Use of "non-essential cookies" may imply the "sale" or "sharing" of Personal Data under certain US privacy laws, including in California.

This website uses the Google Tag Manager, a service provided by Google Inc. (<https://www.google.de/intl/de/about/>, 1600 Amphitheatre Parkway, Mountain View, CA 94043, USA; hereinafter "**Google**"). Google Tag Manager is a solution that allows us to manage our Website tags and cookies through a single interface. The Google Tag Manager itself (which implements the tags) is a cookieless domain and does not collect any personal data. The tool triggers other tags and cookies, which may collect data. Google Tag Manager does not access this data. If cookies or tags have been deactivated (see below) at the domain or cookie level, it will remain in effect for all tags and cookies implemented with Google Tag Manager.

Our Website also uses software technology known as transparent GIF files (i.e. web beacons) to help us better manage content on our Website by telling us what content is effective. Transparent GIF files are tiny graphics with a unique identifier that function similar to cookies and are used to track the online actions of Internet users. Unlike cookies stored on a user's computer hard disk, transparent GIF files are invisibly embedded in websites and are about the size of the dot at the end of this sentence. We may link the information collected by the transparent GIF files to our customers' Personal Data.

We use the web beacon of Act-On Software Inc. (8300 SW Creekside Place, Suite 250, Beaverton, Oregon,

Cookie Policy

97008 USA; “Act-On”). For further information on how Act-On uses the data collected, please refer to the relevant Act-On information under <https://www.act-on.com/privacy-policy/>.

The web beacon of Act-On is used for our legitimate interests in order to ensure that our website is designed to meet requirements and is continually optimised. We also use the web beacon to statistically record the use of our website and to evaluate it for the purpose of optimising our offers.

2. Managing cookie preferences

We use the services of OneTrust, LLC (London, UK) for the management of cookies on our Website. Our Website is configured in a way to only allow the placement of non-essential cookies if you accept their placement via our cookie banner. You have the option to accept all cookies, reject all cookies which are not necessary for the functioning of the Website, or to decide for single cookies to be in place. You can revoke your consent by following the opt-out options described below or using the respective setting option provided by OneTrust.

You can authorize, block or delete cookies through the specific functions of your browser.

For more information on how to set preferences on the use of cookies through your browser, it is possible to consult these instructions:

- [Internet Explorer](#)
- [Firefox](#)
- [Chrome](#)
- [Safari](#)
- [Microsoft Edge](#)

To find information relating to other browsers, visit the browser developer's website.

3. Cookie overview

The following gives an overview on the cookies we use when visiting our Website:

Cookie Policy

Strictly Necessary Cookies

Cookie Name	Description	Storage Time	Provider
cookietest	Common cookie name could have a number of different origins. Where this is first party and a session cookie, its most likely to do with checking to see if the browser is set to block or allow cookies. Common cookie name could have a number of different origins. Where this is first party and a session cookie, its most likely to do with checking to see if the browser is set to block or allow cookies.	0 Days	www.parkplacetechnologies.com
BIGipServersj31web-nginx-app_https	This cookie name is associated with the BIG-IP product suite from company F5. Usually associated with managing sessions on load balanced servers, to ensure user requests are routed consistently to the correct server. The common root is BIGipServer most commonly followed by a domain name, usually the one that it is hosted on, but not always.	0 Days	uptime.parkplacetechnologies.com
OptanonConsent	This cookie is set by the cookie compliance solution from OneTrust. It stores information about the categories of cookies the site uses and whether visitors have given or withdrawn consent for the use of each category. This enables site owners to prevent cookies in each category from being set in the users browser, when consent is not given. The cookie has a normal lifespan of one	364 Days	www.parkplacetechnologies.com

Cookie Policy

	year, so that returning visitors to the site will have their preferences remembered. It contains no information that can identify the site visitor.		
dTValidationCookie	This dTValidationCookie is used to determine the top-level domain and to decide whether the RUM JavaScript should be deactivated for cost and traffic control or overload prevention.	0 Days	gartner.com
connect.sid	This is used for user sessions and is strictly necessary for the Community. Session cookies allow websites to remember users within a website when they move between web pages. These cookies tell the server what pages to show the user so the user doesn't have to remember where they left off or start navigating the site all over again. Therefore, without session cookies, websites have no memory. Without these cookies users would not be able to do simple activities like login, post, etc. on the Community hence they are strictly necessary.	0 Days	www.gartner.com
OptanonAlertBoxClose	This cookie is set by websites using certain versions of the cookie law compliance solution from OneTrust. It is set after visitors have seen a cookie information notice and in some cases only when they actively close the notice down. It enables the website not to show the message more than once to a user. The cookie has a one	364 Days	www.parkplacetechnologies.com

Cookie Policy

	year lifespan and contains no personal information.		
OptanonConsent	This cookie is set by the cookie compliance solution from OneTrust. It stores information about the categories of cookies the site uses and whether visitors have given or withdrawn consent for the use of each category. This enables site owners to prevent cookies in each category from being set in the users browser, when consent is not given. The cookie has a normal lifespan of one year, so that returning visitors to the site will have their preferences remembered. It contains no information that can identify the site visitor.	364 Days	parkplacetechnologies.com
cf_use_ob	This cookie is associated with sites using CloudFlare. It is used to improve page load times and to override any security restrictions based on the visitors IP address. It does not contain any user identification	0 Days	uptime.parkplacetechnologies.com
_dc_gtm_UA-xxxxxxx	This cookie is associated with sites using Google Tag Manager to load other scripts and code into a page. Where it is used it may be regarded as Strictly Necessary as without it, other scripts may not function correctly. The end of the name is a unique number which is also an identifier for an associated Google Analytics account.	0 Days	parkplacetechnologies.com

Cookie Policy

__cf_bm	The cf_bm cookie is a cookie necessary to support Bot Management, currently in private beta. As part of our bot management service, this cookie helps manage incoming traffic that matches criteria associated with bots. This is a CloudFoundry cookie.	0 Days	uptime.parkplacetechnologies.com
OptanonAlertBoxClosed	This cookie is set by websites using certain versions of the cookie law compliance solution from OneTrust. It is set after visitors have seen a cookie information notice and, in some cases, only when they actively close the notice down. It enables the website not to show the message more than once to a user. The cookie has a normal lifespan of one year and contains no personal information.	364 Days	parkplacetechnologies.com
_cfuvid	The _cfuvid cookie is used by Cloudflare to distinguish individual users who share the same IP address for the purpose of enforcing rate limiting rules.	0 Days	gartner.com

Cookie Policy

Performance Cookies

Cookie Name	Description	Storage Time	Provider
dtCookie	This cookie name is associated with, software from Dynatrace, an application performance management (APM) software company. Their software manages the availability and performance of software applications and the impact on user experience in the form of deep transaction tracing, synthetic monitoring, real user monitoring, and network monitoring.	0 Days	gartner.com
__cf_bm	The cf_bm cookie is a cookie necessary to support Cloudflare Bot Management, currently in private beta. As part of our bot management service, this cookie helps manage incoming traffic that matches criteria associated with bots. This is a CloudFoundry cookie	0 Days	g2crowd.com
_clsk	Used by Microsoft Clarity to connect multiple page views by a user into a single Clarity session recording.	0 Days	parkplacetechnologies.com
datadome	DataDome is a bot protection service that may use cookies to distinguish between legitimate users and bots. It is used to protect websites from scraping, fraud, and other types of automated abuse.	364 Days	g2.com
_clk	This cookie is related to Microsoft Clarity analytics service. It is used to collect information about how visitors interact with the website, which helps in creating reports and	364 Days	parkplacetechnologies.com

4. Social media plug-ins

We use social plug-ins from the social networks Facebook, X, LinkedIn, YouTube, Instagram and Threads on our Website as part of our legitimate interests in order to make us more well-known.

When you access a page of our Website that contains such a plugin, your browser establishes a direct connection to the social networks servers. The content of the plugin is transmitted directly from the social network to your browser and integrated into the Website.

By integrating the plugins, the social network receives the information that your browser has called up the corresponding page of our Website, even if you do not have an account of the social networks mentioned above or are not currently logged on to them. This information (including your IP address) is transmitted directly from your browser to the social network and stored where the social networks' servers are. For the processing activity related to the mere transmission of your data to the relevant social network, the latter and us act as joint data controllers, where applicable (for example, in accordance with the case law of the Court of Justice of the European Union).

If you are logged in to one of the mentioned social networks, it can directly associate your visit to our Website with your social network account. If you do not want one of the mentioned social networks to associate the information collected through our Website with your social network account, you must log out before visiting our Website.

The purpose and scope of the data collection and the further processing and use of the data carried out by the social networks in their capacity as autonomous data controllers, as well as your rights and setting options for the protection of your privacy, can be found in the privacy notices of such social networks, available at the following links:

Facebook: <https://www.facebook.com/privacy/policy/>;

X: <https://twitter.com/en/privacy>;

LinkedIn: <https://www.linkedin.com/legal/privacy-policy>;

YouTube: <https://policies.google.com/privacy?hl=en-US>;

Instagram: https://help.instagram.com/155833707900388?cms_id=155833707900388;

Threads: <https://terms.threads.com/privacy-policy>.

5. Amendments

This version of the Cookie Policy entered into force on 9 October 2025. We reserve the right to partly or fully amend this Policy, or simply to update its content, for example, as a result of changes in applicable law. We

Cookie Policy

will inform you of any changes we deem important as soon as they are introduced (by sending out an e-mail to the contacts on our mailing lists, and by temporarily adding a pop-up banner to our website), and they will be binding as soon as they are published on our Website.
